## ■ Drivers

## ■ Technology Product List

- Common Services – Not Duplicated
- Common Services – Duplicated
- Application Support Services
- Un-Allocated Requirements

## ■ Current Roadmap

## ■ Future Directions

## ■ Discussion

# ***GCSS-AF Philosophy***

**U.S. AIR FORCE**

---

***To have:***

- 1. “Preferred” products in certain technology sectors, and***
- 2. Alternative products in the same sector, if a business case exists for it.***

U.S. AIR FORCE

# ***Drivers***

**Products are added to the IF based on:**

- **Customer Requirements**
- **Value to the Air Force**
- **Schedule**
- **Funding**

**“Product Agnostic,  
Economically Pragmatic”**

U.S. AIR FORCE

# ***Integration Framework Services***

---

## **Four Distinct Areas**

### **1. Common Services - Not Duplicated**

- Limited opportunity for new services

### **2. Common Services - Duplicated**

- Opportunity for new services based on business case

### **3. Application Support Services**

- Wide latitude for new services

### **4. Un-Allocated Requirements**

- Wide latitude for new services
